VOLUME xxx

PRICE \$35.00

COMPILED AND PUBLISHED BY

HENDERSON DIRECTORIES LIMITED

419 McMillan Ave., Winnipeg 13, Manitoba

Introductory

The present volume for the year 1961 is the thirtieth edition of Henderson's Directory of Prince Albert, the first being in 1909.

THREE MAJOR DEPARTMENTS

The three major departments are arranged in the following order:—

I. THE BUYERS' GUIDE, printed on yellow paper, constitutes the first major department of the Directory. This embraces a complete list of the names and addresses of the business and professional concerns of the city, arranged in alphabetical order under appropriate headings — a catalog of all the activities of the city. Preceding this catalog, likewise grouped under appropriate headings, are the advertisements and business cards of firms and individuals desiring to present a more complete list of their products or services than is possible in the catalog itself. The Buyers' Guide represents reference advertising at its best, and merits the attention of all buyers and sellers seeking sources of supply or markets for goods.

II. THE ALPHABETICAL LIST OF NAMES of residents and business and professional concerns is the second major department, printed on white paper. This is the only record in existence that aims to show the name, marital status, occupation and address of each adult resident of Prince Albert, and the name, official personnel, nature and address of each firm and corporation in the city.

III. THE DIRECTORY OF HOUSEHOLDERS, INCLUDING STREET AND AVENUE GUIDE, printed on green paper, is the third major department. In this section the named streets and avenues are in alphabetical order followed by the numbered streets in numerical order; the numbers of the residences and business concerns are arranged in numerical order under the name of each street, and the names of the householders and concerns are placed opposite the numbers. The names of the intersecting streets appear at their respective crossing points on each street. Special features of this section are the designation of tenant-owned homes and the designation of homes and places of business having telephones.

ADVERTISING PRINCE ALBERT

An important function of the Directory is to set forth the characteristics and advantages of the city as a place of residence, as a business location, as an industrial site, and as an educational centre. The Directory acts as a mirror, reflecting all that is noteworthy in the city in the above respects. In order to spread this information regarding the city, the publishers have placed copies of this issue of the directory in libraries across the country where they are readily available for reference use by the public. There they serve as perpetual advertisements of Prince Albert, for businessmen the country over realize that the City Directory represents the community as it really is.

ESTIMATED POPULATION OF PRINCE ALBERT, 23,600

This Directory estimate of population is based on the 1956 Dominion Census of 20,172. The Prince Albert City Directory covers considerable territory beyond the metropolitan area, which is canvassed in order that the names of all people employed or who purchase in Prince Albert may be obtained.

Respectfully, The Publishers,

November, 1961

HENDERSON DIRECTORIES LIMITED

Publishers' Note

The information in this directory is gathered by an actual house to house canvass, and is compiled in a way to insure maximum accuracy.

The Publishers cannot and do not guarantee the correctness of all information furnished them nor the complete absence of errors and omissions, hence no responsibility for same can be or is assumed.

The Publishers earnestly request the bringing to their attention of any inaccuracy so that it may be corrected in the next Directory.

LOCATION AND HISTORY

Prince Albert is located just south of the geographical centre of the province 300 air miles north of the International Boundary on Number 2 Highway, the main north-south route. It is on the north branch of the Saskatchewan River in the parkland area of the province between the agricultural plains of the south and the mineral and forest areas of the north.

The first white man to visit this area was Henry Kelsey in 1692 on his travels from Fort Nelson. The next man of which there is a record was Peter Pond in 1776, who established a trading post a few miles west of the city, to be followed by traders representing the North-West Company and the Hudson Bay Company. About the year 1850 a few white settlers established a settlement, known as Isbister Settlement, a few miles west of the present city. However in 1866 a small party of settlers headed by Rev. James Nisbet, located just east of the Isbister settlement, and named the place Prince Albert, in memory of Prince Albert, Prince Consort of Queen Victoria.

In 1879, Emmanuel College, later to become part of the provincial university, was established in Prince Albert by the Anglican Church. In 1882 the headquarters of the Hudson's Bay Company for this trading area was moved to Prince Albert and the following year a second lumber mill with a capacity of 50,000 feet of lumber per day started operations in the community. Growth of the community was slowed during the Riel Rebellion immediately to the south of Prince Albert at Batoche and Duck Lake, however, progress resumed by the middle of the year 1885 and on August the twenty-second of that year the community was incorporated with a population of 600 people. It was incorporated as a city in 1905 at which time it had a population of 3,000.

MUNICIPAL GOVERNMENT

The city is governed by a city council of eight aldermen and a mayor, four of which are elected in alternate years for terms of two years. The mayor is also elected for a term of two years.

Municipal Ownership:

The city owns its own waterworks and filtration system. Electric power and natural gas are supplied by the Saskatchewan Power Corporation. Communication is provided by the lines of the Saskatchewan Government Telephones, while a private company operates a local transit system.

General Statistics:

Population (1961 estimate)	23,600
Elevation	1,414 feet
Area	10,058 acres
Land Assessment	100 %
Improvements and Buildings	60 %

FEDERAL AND PROVINCIAL GOVERNMENT OFFICES

Prince Albert is the locale of the provincial government's northern administration services and branch offices of all provincial departments are maintained here. One of the provincial jails as well as the women's jail is located in the city.

Several Federal government department also maintain offices in the city to serve the northern areas, such as the National Employment Service, Department of Indian Affairs, Royal Canadian Mounted Police Subdivision Headquarters, Immigration, Customs, Fisheries, and National Parks. A federal penitentiary is situated on the city's western boundaries.

AGRICULTURE

Located in the park belt area of the province, agriculture in the area surrounding the city is well diversified. Principal grain crops produced throughout the area are wheat, oats, barley, rye, and flax. A large number of the farms throughout the area also specialize in the growing of rape, alfalfa, clover, flax and other seeds as well as extensive fodder crops. Some commercial growing of pea and potato crops is also being carried on.

In recent years there has been a marked increase in the raising of livestock. Cattle marketings in Prince Albert have shown a steady growth, as more and more emphasis is placed on finishing cattle before bringing them to market, this has also resulted in the development of more feed lots throughout the area. Hog marketings have continued at a steadily increasing volume, as have also calf and sheep sales. Dairying and poultry are carried out chiefly as an adjunct to the major farm operation, although total production has also shown a healthy increase in recent years.

The development of absentee ownership and contract farming has not been noticeable in this area and most of the farms are operator owned. This combined with the diversified operations provide a stable economy that is reflected in the city's high retail sales per capita.

MANUFACTURING

Industry in this city is based primarily on the natural resources of the adjacent areas, thus we find two wood preserving plants here, whose products consist of treated fence posts, poles and railway ties. There is also a plywood plant manufacturing poplar plywood and a planing mill.

In the City is one of the most modern meat processing plants on the continent, capable of handling all the livestock produced in the area. Other manufacturing plants include cement block plants, readi-mix concrete, foundry, sheet metal, sash and door, creameries, soft drink, oil refinery, and brewery.

TRANSPORTATION

Prince Albert is the divisional headquarters of the Prince Albert Division of the Canadian National Railways. It is this division that supplies a major portion of the grain that is shipped via the Port of Churchill. It also serves as the focal point for Canadian Pacific Railways branch lines to the north-east and north-west.

The Saskatchewan Transportation Company offers daily bus service in all directions, while truck transportation is provided by some 10 franchises operating out of the city.

Air transportation to other major cities is available by a daily flight of Western Pacific Airlines. Saskatchewan Government Airways main base, as well as a large airplane overhaul depot is located at the airport. In addition to regular schedule flights throughout northern Saskatchewan, this company also operates a busy charter service particularly during the tourist season, when many fishing parties are flown out to otherwise inaccessible lakes. Also operating a charter air service throughout the north is Athabaska Airways.

HEALTH AND SOCIAL SERVICES

Organization of a regional health unit in this area has just been completed with Prince Albert as the centre. To service this unit the Victoria Hospital has been taken over by the unit and a half million dollar expansion is now underway. A second general hospital serving the community is the Holy Family Hospital. Both of these hospitals operate nurses' training schools. A provincial T.B. Sanatorium, the Mont St. Joseph's Residence for Senior Citizens and the Catholic

Orphanage also serve the community. The Victorian Order of Nurses and the Regional Health Unit render invaluable service in welfare work throughout the city and surrounding areas.

EDUCATION

The city has nine public schools, six separate schools, two collegiates, a convent, a Bible college, a boys college, two business schools and a large Indian Residential School.

The north central regional library located in Prince Albert serves the city as well as many branch libraries throughout the area.

The Historical Society have established an historical museum and Lund's Wildlife Exhibit is well-known for its collection of Canadian wild life.

COMMUNICATIONS

The local daily newspaper, the radio station and the T.V. station encourage an active interest in the welfare of the community and a large surrounding territory. Northern Radio Communications provide two-way radio service throughout the northern districts from their dispatching office in Prince Albert.

RECREATION

Civic recreation is under a full time director with a central community centre consisting of swimming pool, bowling green, tennis courts and craft centre, supplemented by several community centres having paddling pools, play parks, skating rinks, and halls. A municipally owned 18-hole grass greens golf course, ice arena, curling club, bowling alley, ball parks, and theatres along with numerous parks provide ample scope for recreation.

ASSOCIATIONS

The Prince Albert Chamber of Commerce was organized in 1887 and has played a continuous leading part in the growth and development of the city and district. Twenty-two members comprise the Board of Directors known as the council of which the chairman is President. It maintains an office with a manager and staff to serve the members and answer the many enquiries for information about the city and the tourist areas of the provinces northern areas.

The Saskatchewan Chamber of Mines, an organization devoted to the development of the mining industry in Saskatchewan was organized in 1954 and maintains an office in Prince Albert. Its membership consists of prospectors, exploration companies, mining companies, business firms and individuals interested in the development of the mining industry.

The Prince Albert Agricultural Society, which this year celebrates its 77th Anniversary carries out a varied program throughout the year in the interests of the agricultural industry, including such events as livestock shows and sales, 4-H competitions, agricultural short courses and institutes. Big event of the year is the three-day exhibition early in August, which combines agricultural and industrial exhibits with a program of attractions on the midway, race track and grandstand. The affairs of the society are handled by a manager under the direction of a Board of Directors that includes both men and women from the urban and rural areas.

CLUBS AND INSTITUTIONS

There are numerous clubs and organizations in the City. The Prince Albert Club is an old established private club. Service clubs include Rotary, Kiwanis, Cosmopolitan, Lions and Kinsmen, with their counterpart ladies' groups. Lodges include the Masonic, Knights of

Columbus, Oddfellows, Elks and their counterpart in the Ladies' Section.

Numerous fine churches serve the religious needs of the community with most of the denominations represented.

MINING AND FORESTRY

As the west developed along what might be termed a narrow strip some 250 miles wide adjacent to the International border it commonly became known as the prairies. This has created the impression that Saskatchewan is all open prairie, an impression that is soon dispelled as the traveller approaches Prince Albert from the south, and enters the parkland. Immediately north of the city and stretching for a distance of some 150 miles one travels through the commercial forest area of the province, while from the northern edge of the forest area for a distance of another 300 miles to the Territories lies a section of the Canadian shield, known the world over for its storehouse of minerals. As the eyes of Canadians turn to the development of our northern resources, this 450 mile wide area to the north of Prince Albert presents challenging opportunities to its citizens. As the largest city closest to this vast undeveloped area, it keeps a watchful eye on developments in the north so that it may be ready at all time to provide the services to industries ready to develop this upper two-thirds of our total provincial area.

GATEWAY TO VACATIONLAND

Situated some 120 miles south of the centre of the province and the focal point for roads leading to the northwest, the due north and the northeast, Prince Albert is truly the gateway to vacationland. Through the city passes an ever-increasing volume of tourists to the many resorts and fishing grounds of the province's vast recreational space that covers more than half the province's total area. Since the end of World War II some 80 camps and resorts have been established throughout the north to handle this booming tourist influx, that arrives either by road or in increasing volume by private and charter aircraft.

Just 36 miles north of the city one enters Prince Albert National Park, with its 1496 acres of forest and lake country. At Waskesiu, the park townsite, one can find all the conveniences of a modern summer resort patronized annually by more than a hundred thousand people, yet in less than a mile from the townsite one can enjoy nature's unspoiled wilderness. To reach this park the motorist can travel on paved highway from the International border or from the east and west on the Trans-Canada then on Number Two north to the city of Prince Albert and the park.

Auto Camp

Three quarters of a mile north from the river on No. 2 Highway. Consisting of Administration Building, two dining halls with electric stoves, tables, and water; two service buildings with toilet facilities, hot and cold water, shower baths and laundries, one open air dining place, 11 single room cottages and 2 three room cottages fitted with wood stove, table, chairs, mattresses, and if desired, additional bedding. All buildings have electric lighting.

Golf Course

A quarter of a mile east on 22nd St. where it intersects No. 3 Highway. Fully modern eighteen hole golf course.
Hubert Cooke, professional and greenskeeper.

CAUTION....

Pay no money in advance to itinerant Directory Canvassers. We are led to mention this from the fact that certain parties have been fraudulently using our publications as specimens, and by that means collecting money in advance. Before signing an order, see that it has the name of the publisher of this City Directory printed thereon. We ask no payment until the work is delivered, and our solicitors have strict orders not to take advance payment for either advertising or subscriptions.

Out of Sight — Out of Mind
— Out of Business —

The importance of keeping firm and product names in the public eye is recognized by all business men. It is astonishing to see how a firm or product, however meritorious, will slip into the limbo of the forgotten if not persistently advertised.

THE CITY DIRECTORY IS THE NATURAL MEDIUM FOR KEEPING
A BUSINESS OR PRODUCT NAME IN THE SPOTLIGHT.
INSIST ON BEING WELL REPRESENTED IN ITS PAGES.

When You Want to Know:

- where a person lives.**
- what his occupation is.**
- who lives at a certain number on a street.**
- where a street is located.**
- the correct spelling of a name.**
- the officers of a corporation.**
- the partners in a firm.**
- the solution to any of scores of problems that pop up unexpectedly to annoy and baffle you.**
- you can quickly find the answer in
the City Directory.**

A stylized illustration of a sign that reads "STOP AT OUR Hotel". The sign is rectangular with a thick black border. The words "STOP AT OUR" are written in a bold, sans-serif font, stacked vertically on the left side. The word "Hotel" is written in a large, elegant, cursive script font, positioned to the right of the first three words. Below the sign, there is a simple line drawing of a building with a chimney, representing the hotel.

HENDERSON'S PRINCE ALBERT (Saskatchewan) CITY DIRECTORY 1961

Copyright, 1961, by Henderson Directories Ltd.
For List of General Abbreviations see Opposite Page

EXPLANATION

Wives names are listed with husbands, the name of the wife is shown in parenthesis following the husband's as follows: Gregory Richd M (Mary L).

In case of a widow by death, wherever possible the name of the deceased husband is shown in parenthesis as follows: Gregory Mary L (wid Richd M).

The occupation and place of employment is listed as follows: Gregory Richd M (Mary L) slsmn Starr Clothing Co.

Names in **heavy type** denote advertisers in this City Directory.

Ownership or co-ownership of a firm is indicated by showing the individual's name in parenthesis following the firm name, as follows: Carson Grocery Co (Geo B and Paul N Carson)

A firm name enclosed by parenthesis indicates ownership or co-ownership by the individual whose name precedes, as follows: Carson Geo B (Carson Grocery Co).

The head of the house is indicated by h preceding the street address; other members of the family and roomers are indicated by r preceding the street address.

HENDERSON'S PRINCE ALBERT (Saskatchewan)

Directory of Householders, Occupants of Office
Buildings and Other Business Places,
Including a Complete Street
and Avenue Guide
1961

Copyright, 1961, by Henderson Directories Ltd.

In the following list the named streets are arranged in alphabetical order, followed by the numbered streets in numerical order, the intersecting streets being shown. The number of each building on the street is given in numerical order, and opposite the number is placed the name of the occupants or houseowner or tenant. In the business blocks containing offices the occupants are shown by room numbers where practicable, in apartment homes the number denotes the number of the apartment. The profession or business of individuals or firms is given only at their respective places of business; to find occupations of others refer to Alphabetical List of Names.

The symbol * following a householder's name indicates that we have received information during the canvass that the house is owned by some member of the family, but as the publisher cannot and does not guarantee the correctness of the information furnished, nor the complete absence of mistakes no responsibility for errors can be or is assumed, nor can the publisher furnish further information than that shown.

The symbol Δ also following names denotes houses having telephones.

(This section includes some listings reading "Occupied" or "Vacant". In each case the Publishers tried diligently, by various means, to obtain the information for the occupants but were unsuccessful. First two personal calls were made by an enumerator; next, a post card was mailed and the telephone used when possible.)

(The numerals that appear at right edge of columns, ahead of street descriptions and some street intersections, are merely for the guidance of the publishers, and have no other significance.)
